

CX12

STAGE MONITOR

SPECIFICATIONS

- Coaxial self powered stage monitor.
- Includes one 12" coaxial transducer with 80° conical dispersion.
- Very small size cabinet.

The ME series stage monitors have been designed to achieve high performance in a compact size.

These coaxial monitors incorporate a stand pole mount to enable the use as conventional PA speaker cabinets.

This cabinet is made of birch Wissa-Plywood. The paint finish is high resistance polyurea.

TECHNICAL DATA	CX12
Transducers	1x 12" Coaxial driver 2"
Coverage	80 ° conical
Nominal impedance	LF 8Ω - HF 16Ω
Self Powered	1500W + 750W
Maximun Peak SPL	123 dB SPL
Frecuency Range	50 Hz to 20 kHz
Sensibility(1W@ 1m)	1w@ 1m: 98 dB
Weigth	17,5 Kg
Enclosure Geometry	Trapezoidal irregular
Angle adjustment	-
Dimensions(WxHxD)	492 x 328 x 432 mm
Enclosure Material	Birch Plywood 15 mm
Rigging	M8
Finish	Polyurea
Colour	Black
Connections	2 x Powercom 2 x XLR 2 x Ethernet 1x USB
