

ARQ 10

- Conventional compact size cabinet.
- Includes an 10 " transducer and a 1" compression driver mounted on a rotary constant directivity horn.

The ARQ speaker series have been designed for use in discrete PA systems as well as for fixed installation. The high frequency horns are rotatable which enables to install them in horizontal and/or vertical position.

The ARQ series have a curved design made in Birch wood, it is also ideal for installations where a good quality sound and elegant design is required. A high quality two-way passive crossover is included into each cabinet. This cabinet is made of birch Wissa-Plywood. Speakon NL4 connectors are used for power amplifier connections . The paint finish is high resistance polyurea.
